

Hosted Microsoft® Exchange Server Solution

Set Yourself Free

For just a few dollars a day you can seamlessly access and synchronize all your mailbox data, including contacts and calendar, across a variety of platforms and mobile devices.

Total Mobility

If you typically use Microsoft Outlook 2003 while in the office, a BlackBerry or Treo handheld while on the road, and Outlook Web Access from home, you can sync them all together. And that's without ever worrying about missed e-mails, contacts or appointments.

Improved Productivity

ProTech's Hosted Microsoft Exchange Server 2003, or 2007, offers all the features and functionality of the popular application in addition to an intuitive collaboration capability for improved productivity with anywhere, anytime access.

Electronic communication has become the lifeblood of any business; it is a critical communications tool for most of our clients, often more important than the telephone.

As a Gold Partner, ProTech understands this and has exclusively focused on providing the highest quality and reliable Exchange Hosting Service. Our experience has made us experts in providing enterprise quality service. ProTech host a premium infrastructure that delivers 99.999% reliability to ensure your email is working when you need it most.

Complete Mobile Access:

- **Work anytime, anywhere** — Get full access to all your e-mail folders, contacts, calendar and files from any Microsoft Outlook or browser.
- **Keep up to date** — Changes made to your e-mails, contacts, calendar and files are automatically updated when accessed via any other medium.
- **Mobile access** — Carry your contacts, calendar, notes and task list on the road in your PDA, whether it's a BlackBerry, Compaq, Dell, Handspring or Palm, etc.
- **Work offline** — Exchange e-mail, change contacts, schedule meetings and modify files from public folders while disconnected from the internet or offsite. Outlook keeps an offline copy of it all, and all offline-mode changes are synchronized.

Save Money:

- Save thousands of dollars by not having to purchase licenses for Microsoft Exchange Server.
- Eliminate the need to purchase backup software and tapes, or antivirus software.
- Software updates are handled automatically on the servers, at no charge to you.

Maintain Data Security:

- Be secure with an enterprise-managed firewall, which includes packet inspection and intrusion detection.
- Be protected by automatic virus checks on all inbound and outbound e-mails and their attachments.
- Be confident that your valuable company data is in a secure data center, one also is used by the NYSE.
- Be sheltered because data is backed up daily — no more data loss.
- Be safe, knowing we keep up with the latest security holes used by hackers; your data is always secure.

BlackBerry Enterprise Server:

- Two-way wireless synchronization
- Anytime, anywhere access to all your e-mail folders, files, contacts and calendar
- View attachments directly from a handheld device

Efficient Messaging Server

- Complete, real-time wireless synchronization, without the use of a cradle
- Wirelessly synchronize your e-mail, calendar, contacts, notes, tasks, public folders, access to your Global Address List (GAL)
- End-to-end security via Triple-DES and AES encryption
- Constantly updated so your information is always up to date
